

COASTAL & RAINFOREST ESCAPE BORNEO RAINFOREST LODGE, DANUM VALLEY

4D3N ITINERARY

DAY 1

Your expedition commences in Lahad Datu with a meet-and-greet at the Borneo Nature Tours office. Following a brief registration and safety briefing, enjoy a comfortable transfer to the coastal outpost of W Bay Payang for a hearty breakfast and a short rest before the ascent.

Next, journey up the mist-shrouded slopes of Mount Silam, a unique "mountain in the clouds" known for its rare ecosystem and stunted, mossy trees. From the lookout points, take in breathtaking views of the Darvel Bay archipelago before embarking on a guided trek through undisturbed highland forest. This forest is famous for its unusual red soil, which creates a habitat unlike anywhere else in Borneo. Keep an eye out for the endemic Red Crabs that match the color of the earth, up to four distinct species of exotic Pitcher Plants, and vibrant birdlife, including Hornbills and the charismatic Red Leaf Monkeys.

After descending for a curated lunch and a chance to freshen up at W Bay Payang, begin your 2.5-hour journey inland toward the pristine Danum Valley Conservation Area.

Arrive at Borneo Rainforest Lodge in the late afternoon. After a warm welcome and check-in, enjoy an orientation of the lodge's sustainable luxury features. As night returns to the forest, venture out on a Guided Night Walk or Night Drive to discover the hidden, glowing eyes of the jungle's nocturnal residents, marking the perfect start to your rainforest escape.

DAY 2

Awaken to the calls of Bornean Gibbons and begin your morning with a guided trek to Coffin Cliff, an ancient Dusun Subpan burial site. For those who are fit and eager for a longer trek, continue onward to Fairy Falls, surrounded by lush foliage and scenic views. Afterward, cool off with a refreshing dip in the Natural Jacuzzi Pool before returning to the Lodge for lunch.

In the afternoon, experience the Canopy Walkway—a 314-meter-long suspended bridge rising 27 meters above the forest floor—offering panoramic views of the rainforest canopy and its hidden wildlife.

As the day concludes, set out once again for a Night Drive or Night Walk to discover the forest's thriving nocturnal life.

DAY 3

Start your day with a guided trek along the enchanting Segama Trail to discover a magnificent natural landmark – an estimated 500-year-old strangling fig tree. After returning to the Lodge for lunch, the afternoon is yours to enjoy.

Adventurers may embark on a Jungle Cycling experience, winding through scenic rainforest trails, or opt for a River Rafting journey along pristine waters surrounded by untouched nature. Alternatively, join another guided trek or unwind at your own pace amidst the tranquil surroundings of the Lodge.

As evening approaches, take one final Night Drive or Night Walk, continuing your exploration of this biodiverse haven under the stars.

DAY 4

On your final morning, enjoy an optional early walk before returning to the Lodge for a hearty lunch. After check-out, begin your transfer back to Lahad Datu Airport, taking with you a lifetime of memories from Borneo's extraordinary coastal and rainforest wonders.

Attention Snorkelers!

Blue Rings Reef is an open-water environment. For your safety and enjoyment, all participants will receive a comprehensive safety briefing from our certified guides before entering the water.

Please note that, on the day of the activity, our guide will assess each guest's comfort and readiness before allowing entry into open water to ensure everyone's well-being.

Minimum Age Requirement:
This snorkeling activity is open to adults and children aged 12 years and above.

If you have any questions, please don't hesitate to contact us – we're happy to help!

Frequently Asked Questions

What can I see?

While wildlife sightings can never be guaranteed, you'll have the opportunity to experience an exciting mix of coastal and rainforest biodiversity. Guests may encounter vibrant coral reefs, turtles, and schooling fish along the coast, as well as iconic Bornean species such as orangutans, pygmy elephants, gibbons, red leaf monkeys, bristleheads, pittas and more within the rainforest. Our nature guides will do their best to maximise your chances and help you appreciate every sighting.

What if I feel unwell?

Your wellbeing is our priority. We have a basic in-house clinic and a team trained in first aid to assist with minor issues. If you need a doctor, we'll arrange a transfer to the nearest medical facility and take care of the necessary steps for you.

Is WiFi or phone signal available?

Yes, we offer WiFi and 4G at the main lodge and chalets. As we're in a remote rainforest, weather can affect the signal, but we'll always be happy to help if you need anything. Each room has a phone, so you can reach our team anytime during your stay.

Are the activities child-friendly?

Many of our experiences can be enjoyed by families, but suitability depends on your child's fitness and comfort level. Snorkelling is best for ages 12 and above, while some rainforest treks require higher fitness. For an easy and enjoyable option, our self-guided boardwalk trail is ideal for young children, elderly guests, and gentle explorers.

Should I worry about leeches or mosquitoes?

You may see two harmless leech species here: the brown ground leech and the tiger leech on leaves. Their bites are mild and more of a nuisance than a danger. Our rainforest is also a low-malaria-risk area, and all rooms come with mosquito netting and repellents to keep you comfortable throughout your stay.

What is the weather like?

Expect warm, humid days around 28-30°C, with refreshing rain showers now and then. Evenings are cooler with gentle breezes. Our guides monitor conditions daily to ensure your activities are safe and enjoyable.

What to prepare for the tours?

COASTAL

Pack these in a small dry bag, as your main luggage will be transported to the lodge.

Small dry bag

Change of clothes

Water bottle

Reef-safe sunscreen

Insect repellent

Swim attire
